

## CEDAR LAWN TAKES NOTE

**More Choices! You spoke, we listened.** Cedar Lawn Memorial Park is committed to meeting the needs of our families. Recently, we asked for your feedback to share your ideas and needs, and as our Memorial Park continues to develop, we are honored to offer these Memorialization choices.

### CEDAR LAWN CREMATION AND MEMORIAL CROSS, LOCATED IN THE GARDEN OF DEVOTION

As society changes, so have your views on cremation. Many of you have indicated the desire for more affordable options that still provide a dignified place for remembrance.

We are proud to unveil the newly constructed Cedar Lawn Cremation and Memorial Cross. Conveniently located in the heart of the *Garden of Devotion*, between Memorial Drive and the Bible feature you are familiar with.

This beautiful, freshly landscaped area will host personal cremation **Memorial Bench Estates** and a very affordable single- or double-inurnment **Cremation Niche** in one of the Columbariums.

#### Each Memorial Bench Estate

will proudly display your family name on the interior side and a short inscription on the opposite side. Each bench can hold up

to four inurnments, and your loved ones' names will be added on the support. The first four cornerstone locations of Everlasting Blue Memorial Bench Estates are available for a short time with preconstruction pricing (*note, one has already been sold!*).

**The Columbarium** affords both individuals and companions a dignified location to have their cremains placed in a personal sealed Cremation Niche. Each unit includes a single or companion bronze plaque and vase assembly to honor your loved one. Your family or loved ones will appreciate your attention to detail as they visit.

*These photos show how the landscaping and construction are fully underway for this beautiful new addition.*

## CEDAR LAWN MEMORIAL PARK DEVELOPS A PLAN

The area chosen, located in the *Garden of Devotion*, has been purposefully designed in the path of a cross leading to the Bible feature. In this garden, there are a limited number of ground burial spaces remaining for sale. Taking this into consideration, along with the responses from families seeking more cremation options, we were led to dream this project.

This expansion will allow us to offer multiple cremation products at varying prices. The cremation bench estate has become popular, and now a bench may be purchased to be placed within this design. Also, an additional columbarium is being installed so your family may select a niche of their choosing.

## PURPOSE

Our intent is to offer multiple cremation inurnment options in a design which blends into the current *Garden of Devotion*. There are a limited number of ground burial spaces in this garden, so families interested in cremation have this option to be close by. The project construction began in February and will be developed and sold in phases.
